

SprayConeAI.com
Open in Browser

Analyze spray cones. Optimize atomizer settings.

SprayConeAI® is an open-access web tool that analyzes spray pattern images directly in your browser — helping you optimize and align the settings of paint atomizers, such as pneumatic atomizers. Fast, local, and practical.

DESKTOP VIEW

MOBILE VIEW

- 1 Visit [SprayConeAI.com](https://sprayconeai.com)
 - 2 Capture a photo of your spray pattern or upload an existing image
 - 3 Add optional comments about your spray setup
 - 4 Use a calibration sticker if required
 - 5 Process the image and download the results
- No data is stored on remote servers
 - All images remain locally on your device
 - Compatible with both PC and mobile devices

WHAT'S NEXT

We are working on advanced AI models to analyze more complex spray cone phenomena, including:

[Donut-shaped spray patterns](#)

[Surface properties](#)

[Color detection](#)

TIP

Use the backside of this brochure to test SprayConeAI® with a printed calibration scale.
